

Dancing Bees

Dance Classes for Ages 2 ½- 4

Dance is a great way to build healthy patterns for both the brain and body. Starting dance at a young age will help develop positive body pathways and keep unhealthy habits at bay. Through a combination of play and structured routine, our DancingBees classes benefit young children physically, mentally, socially and emotionally.

At Airborne, your young dancer will...

- *Build strong movement patterns.*
- *Learn about musicality.*
- *Explore their individual movement qualities.*
- *Build self-expression.*
- *Discover a love of dance.*
